Motorsport Commercial and Liability Insurance

If you're a motorsport team, business or non-standard motor trade operator, Reis can get you covered. Our specialist commercial team can arrange cover for your business and your assets at your premises, during transit to and from events or operating away at race circuits and rally service areas.

Aspects of the policy can offer a choice of cover for property material damage, all liabilities, business interruption, commercial and non-standard vehicle road risk cover (for you and your customers' vehicles), motor trade activities and legal costs. Should something happen and you need to make a claim, you'll want to be confident that everything can return to normal as quickly as possible.

On Track Accident Damage Cover

If you're racing, rallying or testing, our on track accident damage cover is ideal for UK based teams and competitors meaning you can protect your investments whilst competing on track. It will help to mitigate the financial consequences of a serious loss, allowing your team and driver to retain a competitive edge whilst giving them peace of mind on track.

Road Insurance for Competition Cars

We can arrange cover for competition cars that includes public road and transit needs. The policy can also provide cover for your suit, helmet and event road sections. As a competitor we know that getting more time on track is what it's all about, so should something happen on the public road and you need to make a claim, we'll help you return to competition as quickly as possible.

Support Vehicle and Motorhome Insurance

Reis can arrange cover for all classes of vehicles allied to motorsport's competitors including support trucks, services vans, team vehicles and motorhomes. The cover can include social domestic and pleasure (where relevant), and can be for small to very large, high value support vehicles. Public liability cover is also available for your support vehicle where corporate hospitality is provided or where post event or end of season parties are hosted!

Event Organisers and Promoters Insurance

Motorsport events and media productions come with the inherent non-standard activities and risks that may not be found elsewhere. From regular events such as corporate days and passenger rides, to one-off public events and high profile productions – you'll need a policy that's tailor-made to suit your requirements. Reis can help build a bespoke policy from a range of products designed specifically to transfer the risk of running motorsport events, including public liability cover.

Personal Accident and Travel Cover

Personal accident cover can provide cover for temporary or permanent disability should you suffer injury whilst competing. We can arrange annual and bespoke one off packages to include loss of income and medical repatriation from territories outside of the UK. Travel cover can be for a single trip or an annual policy that covers multiple trips and offers a pre-travel advice line, a legal advice line and 24hour emergency assistance.

Storage and Transit Insurance

We can arrange cover for your vehicle whilst not under its own power, either in storage or whilst being transported to and from events. If you're travelling slightly further or staying a little longer, this can include European trips and overnight stays.
